

BMW Mini Cooper S

Supercharger swap-out system

INCREASE
YOUR

POWER & TORQUE

Power increase –
162whp to 197whp

Torque increase -
142lb/ft. to 169lb/ft.

*with standard pulley supplied

Torque by Design
Torque where you want it, when you want it

Features:

- ✓ Replaces the factory Roots type supercharger with the ultra efficient S5-210 screw compressor which runs cooler and provides a denser charge, creating more power and torque at the same boost level.
- ✓ Suitable for a standard vehicle without the need for any additional upgrades.
- ✓ S5 -210 can generate 300Hp on modified vehicles.
- ✓ No cutting or welding. Completely bolt on. Sprintex® designs do not require body or frame components to be cut.
- ✓ No external oil lines to add as the compressor has its own internal oil supply.
- ✓ Sprintex system parts are warranted** for 12 months or 12,000 miles.

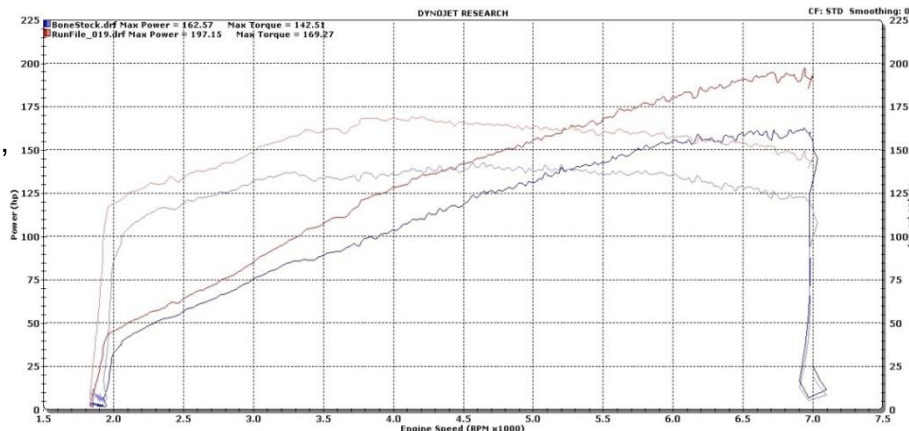

Available for:

- ✓ 2002 to 2008 Mini Cooper S R52 and R53, LHD / RHD with Manual Transmission.

MSRP: US\$3,195* + installation

* Pricing subject to change without notice and subject to applicable taxes

** Excluding consequential damage
